

# APPLIED AI

Use our AI Experts to Build **YOUR** AI Capabilities

The Clusterone Applied AI team offers professional services in solutions design and research. They provide customers with the expertise needed to successfully execute complex machine learning projects and make the most of the Clusterone deep learning platform.

## APPLIED AI CUSTOMER SOLUTIONS

- ▶ The Customer Solutions team provides solutions design and installation of the Clusterone technology for high profile clients that need additional help and expertise.
- ▶ The team consists of world class Machine Learning / Deep Learning engineers (most of which have PhDs in related fields).
- ▶ The Customer Solutions team excels at implementing a known solution into the customer's technology stack or workflow. The team typically works in collaboration with the customer's in-house engineers and experts.

## APPLIED AI RESEARCH

- ▶ The research team offers algorithm development from the ground up and develops new solutions to previously unsolved problems.
- ▶ The team consists of research scientists with an academic background (PhD, Post-doc) within AI, Machine Learning, or a related field.
- ▶ The research team spearheads Clusterone's expertise on the theoretical foundations of today's state-of-the-art Machine Learning and Deep Learning algorithms.

# APPLIED AI WORKFLOW

## RESEARCH

- ▶ Suitable when the problem doesn't have known solutions and requires ground-up algorithm development
- ▶ Core expertise is within state-of-the-art ML/DL research
- ▶ World class ML/DL scientists: PhDs & Postdocs in CS and AI
- ▶ Typically work in collaboration with the Customer Solutions engineers

## CUSTOMER SOLUTIONS

- ▶ Suitable when the problem has known/knowable solutions
- ▶ Responsible for solutions design and installation of the Clusterone platform
- ▶ World class ML/DL engineers: degrees and/or PhD in related fields
- ▶ Typically work in collaboration with the in-house engineers/experts

# APPLIED AI TEAM

## WORLD-CLASS SCIENTISTS & ENGINEERS

**85%** of the team has PhDs

spanning:

**Computer Science, Astrophysics, Bio-physics, Nuclear Engineering, Robotics**

**100%** of the team has experience with **large-scale industry projects in ML/DL**

with technical experience and training from:

# PRICING

The Applied AI pricing structure for both customized solutions and research varies with either on-site or remote delivery, and hourly, daily, or monthly billing. For a solution that works best for you, please email Babak Rasolzadeh, VP of Applied AI, at [appliedai@clusterone.com](mailto:appliedai@clusterone.com).
